

Transport for London LEC Supplier List

Low Emissions Certificate (LEC)

This document provides the contact details of suppliers whose equipment has been certified under the Low Emissions Certificate (LEC) certification scheme. Only suppliers on the current 'Open' list are included.

Transport for London does not provide any endorsement or recommendation of particular equipment or suppliers, and recommends you research carefully the options available for your vehicle.

Other manufacturers and equipment are available which may also be able to sufficiently reduce the emissions of your vehicle to meet the Low Emission Zone standards. However, these will only enable your vehicle to drive in the Zone without charge if the manufacturers obtain certification for their equipment.
